BULLETIN No. 2

SPRING 1931

VERKADE'S NURSERIES

NEW LONDON, CONN.

MEMBERS OF

The American Association of Nurserymen

The Society of American Florists

The New England Nurserymen Association

The Connecticut Nurserymen Association

LOCATION

We are located on the main road between New York and Boston, can make shipments by freight or express from New London, also have good shipping facilities by boat to New York and various other points.

For the benefit of those not acquainted with our establishment we wish to inform them that we have fifty acres devoted to the growing of lining out stock in seedlings, cuttings and grafted stock, and are trying hard to produce the best class of stock at a most economical method, so that we may turn it over to our customers to grow on with a small margin of profit for production.

We are, at all times, glad to have you call on us, and will gladly show you the grounds, so that we may get better acquainted.

We try to serve all of our customers alike; by this method, since our establishing in 1916, we have managed to be able to refer you to Dunn's or Bradstreets or any of our local Banks for references.

If interested in quantity, we would like to have the opportunity of quoting on your list of wants.

TERMS

Payment: Fall orders are due December 1st; Spring orders June 1st after date of delivery. Orders from unknown parties must be accompanied with full cash or satisfactory references.

Packing at cost. 5 at 10, 50 at 100, 500 at 1000, 3000 at 5000 rate.

CERTIFICATE OF INSPECTION

A certificate of inspection of the State Entomologist will accompany each shipment.

COMPLAINTS

Should there be any reason for complaint, we must be notified on receipt of goods, otherwise we cannot entertain it. We make it a point to give all reasonable claims proper consideration

ORDERS

Orders are accepted upon condition that they shall be void should any injury befall the stock from frost or other cause over which we have no control.

GUARANTEE OF GENUINENESS

While we exercise the greatest care to have all our trees and plants genuine and reliable, and hold ourselves prepared to replace on proper proof, all trees that may prove untrue, we do not give any warranty expressed or implied; and in case of any error on our part it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the stock.

We guarantee all our stock to be in condition on leaving our hands, but we do not guarantee it to grow under all conditions, nor do we make up any loss whatever due to climate effects, or after culture on the part of the purchaser, and the risks of transportation are to be borne by purchaser. When losses occur by detention, claims should be at once made on forwarders.

TWICE-TRANSPLANTED STOCK

This class of stock makes ideal lining-out stock for Landscape men, who do not have land enough to wait for small stock to come along, as such stock is often used for plantings where prices are to be low; also fine stock for Window Box plantings. This stock may be B&B at 5c. additional.

GRAFTED STOCK, FROM 2¼" AND 2½" POTS

This class of material represents the best class of nursery stock grown today, as such varieties as listed herein are always in demand, and bring a good return on the investment.

These grafts are grafted on re-rooted understocks, and will be ready for delivery after May 1st. We may state that all varieties are grafted on parent understocks, Juniper on Juniper, Biota on Biota, Thuya on Thuya, Beech on the Fagus Sylvatica, Japanese Maple on Japanese Maple, Retinospora Obtusa on Pisifera and Lawsoniana stocks and so on, nor do we use other than nursery grown understocks.

This stock will be packed in crates for shipment, each crate containing not over three hundred plants, each plant will be rolled separate in paper before shipment, so as to insure safe arrival.

This stock may be planted in fieldrows, although such varieties as Koster and Moerheimi Spruce, Magnolia, Beech and a few other of the more tender varieties, better be bedded for a year, and shaded with lath shades; be careful, however, not to plant them under glass in frames, as the stock is hardened for outdoor climate before shipment.

EVERGREENS FOR LANDSCAPE PLANTINGS OR CASH AND CARRY TRADE

These evergreens have been twice or three times transplanted, and will be shipped balled and burlapped at the prices stated. We use the so-called "Dutch Burlap" so as to be able to plant the trees without the necessary removing of the burlap, which will readily decay after planting. We can make special prices for carload orders.
